

Continuation of the last meeting, held
One week later, on the 9th September 1975.
Commencing at 8-15 pm. at the Marston
Parish Hall in Marston.
The previous minutes were not read it
being generally agreed to read them
concluded at the next meeting.

Mr. Richards and Mr. Adams reported that
they had not found Mr. Brown at
home during the week and so had
not been able to convey the
Committee's feelings re his premature
resignation.

Mr. Pinfield proposed that Mr. Brown's
resignation be accepted.
Mr. Adams seconded, but on reflection
withdrew his seconding.

There being no other seconders the
proposal fell. It was left that the
two members would try again to
see Mr. Brown. As the afternoon
drew to a close, it being now 9.15, that
his father had moved away and
the Brown had been away.

Mr. Webb said that we have 23 names
on the knitting list which he has
revised with Mr. Brown our Treasurer.
Suggesting that Mr. Adams propose that
the next 5 plots behind Mr. Spicer's

be offered to Mr. Lawst who is not
though on the riding list but is
prepared to repair and maintain our
sation mowers. 10:15 Recorded by the official
as a good idea saying the
needs on that 5:00 were causing
him a constant problem blowing across.

The voting showed 5 for 2 against 3,
abstentions therefore it was agreed
to offer him the job.

It was decided that all future
letting be the responsibility of the
people holding the following positions
in the association as a
joint decision:

1. Secrecy.
2. Treasurer.
3. Chairman.

It was agreed that a deceased
members job would be made
available to his next of kin to
continue cultivation and so
become the recognised athlete and
legally subsequently his or her next
of kin in due course.

Correspondence.

Letter from Mr. Powell, City Estates
Office, asking to our letter as follows
in outline only: =
An increased water supply could be

at high cost to u.s., No, to
the park and drive roadway due
to the project only being checked and
not advertised. Stop soil coming for
the pond site, make ship ~~to~~ will
soon be removed, 50 yards of
 $\frac{1}{2}$ " plastic pipe 240' 50 gallon tank
and call valve will be given us,
repairs to drainage system ~~to~~ now
completed and it is not considered
that a culvert would be of any
advantage.

Mr Floerle has taken plot 132
which is a 10 pole plot.

Mr Strand produced an application
form for heirs members to complete
when asking for plots. Saying this
is a new procedure which is
being done on most allotment
sites around Strand and he would
like committee to adopt it.

There was some discussion as
to its value without infringing
on the proposed allotment policy
but was subsequently agreed to
give it a try, at least it
should assist the waiting list
recording.

Mr. Shand, conducted; bringing up the
question of the Trustees and the
signing of the lease.

It was agreed to leave the
signing of the lease until after the
A. S. M. when new Trustees could
be appointed by the membership.
